SUMMARY

Front-End Web Developer with strong skills in JavaScript, HTML, CSS, and React. Graduate of the Springboard Software Development Career Program with 800+ hours of hands-on coding. Excellent communication, detail-oriented mindset, and a track record of consistent performance in fast-paced environments.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), HTML5, CSS3
Front-End: DOM Manipulation, Responsive Design, Flexbox, Grid
Frameworks: React (Foundations)
Tools: Git, GitHub, VS Code, Netlify, Chrome DevTools
Other: Debugging, Error Handling, UI/UX Principles

PROJECTS

Meme Generator — JavaScript, DOM, CSS
Interactive web app allowing users to upload images and generate custom memes.

Caesar Cipher App — JavaScript
Tool that encrypts and decrypts messages using loops, functions, and modular code.

Digital CV Website — HTML, CSS
Fully responsive personal website showcasing clean UI, spacing, and layout design.

Debugging Lab — JavaScript
Set of exercises demonstrating ability to diagnose and fix JavaScript issues.

EDUCATION

Springboard — Software Development Career Program (Completed Nov 2025)
800+ hours of JavaScript, HTML, CSS, APIs, Git/GitHub, and React fundamentals, with mentor guidance.

Universal Technical Institute (UTI) — Associate's Degree in Automotive Technology (2018)

Eastern Hills High School — High School Diploma

PROFESSIONAL EXPERIENCE

Order Filler — Sam's Club (2022–Present)
Fulfill customer orders using RF scanners, digital pick systems, and accuracy tracking tools. Maintain high productivity while ensuring order precision and workflow quality.

Transportation Coordinator — FedEx Supply Chain (2012–2019)
Coordinated transportation operations using TMS software. Managed routing, scheduling, delivery accuracy, and issue resolution across logistics processes.

Lube Technician — Kwik Kar (2003)
Performed inspections, fluid top-offs, and basic automotive maintenance.
